FOCUS: It's this easy.

SUBJ: What's stopping you?

NAME,

What's stopping you?

Specifically...

What's stopping you from fully embracing video in regards to your brand, product and service?

Because there's two ways to do this, from what we've seen.

Option 1 — those people who use video, but only because they "have to" or it's what "others" are doing.

They usually produce low level content with the quality to match — then wonder why they *don't* get conversions, shares and engagement.

(Let's hope this isn't you...but if it is, that's okay for now.)

Option 2 — those who understand video is an ESSENTIAL part of growing their presence, and ultimately differentiating themselves in any marketplace.

But for both, there's tons of obstacles in the way, right?

Learning software.

Creating production.

Editing turnaround time.

Paying licensing fees.

It's enough to make you quit, because who's got that kind of time and cash?

That's why we *love* Viddyoze.

In a few short years, Viddyoze has transformed how people, entrepreneurs, businesses, solo-preneurs create videos that move the needle.

Gone are the days of hiring expensive freelancers, dealing with complex and pricey software and taking FOREVER to create.

FOCUS: Simplicity

SUBJ: 3 clicks for \$1,000?

NAME,

Quick question for you:

If you needed a world class produced video to put in your company (or a client's) logo — how long would it take?

Probably *more* than 3 clicks or a matter of minutes.

And if it didn't, it'd probably look like your 13 year old cousin with an animation hobby put it together.

(And she's awesome — but still needs some work.)

The last few days we've been talking about how awesome Viddyoze is, and why this is a must have for your arsenal.

These guys are delivering crazy levels of value and are always upgrading their platform to give you the best of the best.

What would normally take days, if not weeks — and cost an arm and a leg, now takes a few moments.

Add in world class, in-house production with matching beats, and you're going to have to call a dentist for anyone who comes across your video.

Why?

Jaws are going to drop so hard.

So, head over here now and find out what they're all about and how you can differentiate yourself using their platform:

FOCUS: Lack of complexity

SUBJ: Simplicity = superpower?

NAME,

In a world with endless options, what becomes your superpower?

(Take a second now.)

If you said simplicity, you're *right*.

The reason you and I have trouble executing even some of the best laid out plans for content is simple:

We overcomplicate everything, which means we get lost in a sea of "what we could do" or "what we have to do", instead of what REALLY moves your business forward:

EXECUTING!

And that's why we're so excited to be involved with Viddyoze, because these guys "*get*" it.

They took something that was incredibly complex — creating irresistible videos, stingers, intros and outros...

And made it BEYOND simple!

But what's the catch, you're asking?

If it's simple, it must mean the quality is poor, or something else.

And that's where these guys *really* win.

They travel all over the world and hire the world's best production crews to create unbelievable templates you can start using today.

Check them out right here, and simplify your life:
